STRAIGHTENING THE HAIR

STRAIGHTENING THE HAIR DEMONSTRATION

The following will provide you with the correct procedure to straighten a clients hair

The demonstration can be viewed by visiting <http://multimedia.forthvalley.ac.uk/player/3571>

PROCEDURE

Step 1	Sit your client in the chair in front of you
Step 2	Brush the hair from root to tip
Step 3	Spray the hair evenly (approximately 10 inches away from the hair) with a heat protection spray
Step 4	You should now section the hair, starting from the back of the head. You should use clips to hold the sections of the hair that have not been straightened to keep them out of the way. This will allow you to clearly see which hair sections have been straightened.
Step 5	Take a small section of the hair out of a clip and by lifting it with you comb place the straightening irons close to the roots of the hair and slowly glide the straightening irons down the full length of the hair (do not pull harshly on the straightening irons)
	You will notice that the hair now has a smooth and straight effect.
Step 6	Take another small section of hair out of the clip and repeat Step 5 until the full head of hair has been straightened
